

RSA 7 + 17Zn

CAUTION: KEEP OUT OF REACH OF CHILDREN

GUARANTEED ANALYSIS

Total Nitrogen.....7%
Nitrate-N 7%
Zinc (Zn).....17%

Derived from: zinc nitrate hexahydrate
Pounds of zinc per gallon = 2.2

GENERAL INFORMATION

RSA 7 + 17Zn is a concentrated solution of zinc that combines high solubility with convenience of application for foliar applications. **RSA 7 + 17Zn** is designed to mix with nitrogen and potassium fertilizers, but NOT phosphate fertilizers. **RSA 7 + 17Zn** is designed to prevent and/or correct zinc nutrient deficiencies on food and fiber crops.

RSA 7 + 17Zn at the rate of 1 quart per 100 gallons of pH 7.6 water will lower the pH to approximately 6.6.

HOW TO APPLY

A quality non-ionic surfactant should be added to the spray solution to aid in surface coverage and help leaf absorption.

Ground

Dilute – Use a minimum of 100 gallons of water per acre.
Concentrate – Use a minimum of 20 gallons of water per acre.
(See Note 3 in Precautions)

Aerial Application

Do **NOT** use without the addition of a non-ionic surfactant in a minimum of 5 gallons of water per acre. Apply with aircraft equipped with mist type nozzles only.

RECOMMENDED RATES

Fruit & Nuts: Including avocados, citrus, mangos, peaches, pecans:

Mature Trees: Apply 1-2 pints per acre per application.

Young Trees: Apply 1 quart per 100 gallons of water and spray to the point of run-off.

Field Crops: corn, cotton, peanuts, small grains, soybeans.

Apply 1 pint per acre per application. Make up to 3 applications per season.

Vegetables:

Apply ½ pint per acre in 100 gallons of water.

PRECAUTIONS

1. When compatibilities are unknown, mix using a jar test prior to large scale mixing.
2. DO NOT mix with polyphosphates and orthophosphate fertilizers.
3. If spraying in less than 50 gallons of spray, use a quality nonionic surfactant at the recommended rate.
4. If spraying with citrus oil, only use with 435 class oils and only if you have first had experience of using this mixture.

NOTE: A number of variables influence the rate of application necessary to control or correct a specific deficiency. For best results, follow good agronomic practices, soil test and, if necessary, use tissue analysis. For more information, contact your local agricultural specialist.

CAUTION

Avoid getting in eyes or on the skin.

Use with adequate ventilation.

Keep container closed when not in use.

STORE ABOVE 32F.

If stored below 32F, warm and agitate prior to use.

NOTICE: Seller warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal condition of use. Seller makes no warranties of merchantability or fitness for a particular purpose or any other express or implied warranty except as stated above. Under no circumstances will such warranty extend to the use, storage or handling of this product contrary to the label instructions or under abnormal conditions or under conditions not reasonably foreseeable to seller. The buyer shall assume all such risks of such use, including but not limited to crop injury, ineffectiveness, damage to plants, damage caused by drift to other plants or crops, personal injury or other unintended consequences. These consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application, all of which are beyond the control of the seller. In no case shall RSA MicroTech, LLC be liable for consequential, special or indirect damages resulting from the use or handling of this product.

Weight Per Gallon: 13.0 Lbs
