GUARANTEED ANALYSIS

Total Nitrogen (N)	7.0%
4.0% Ammoniacal Nitrogen	
3.0% Other Water Soluble Nitrogen	
Zinc (Zn)	9.0%
9.0% Chelated Zinc	

Derived from: Zinc diammonium EDTA

Do not store below 33° F.

If frozen, warm to room temperature and mix vigorously.

GENERAL INFORMATION

Platinum 9% Zinc EDTA is generally compatible with pesticides and fertilizer solutions. Add this micronutrient to water before adding pesticides. It is always advisable to test for compatibility on a small scale before tank mixing product. Consult your state Agricultural Experiment Station, or Extension Agent for additional information on rates, timing of application and sensitivity of varieties or hybrids to phytotoxicity. **This product is NOT designed to be used in foliar applications.**

Weight Per Gallon: 10.9 lbs. per gallon

Do not contaminate water, food or feed by storage or disposal.

Store in a cool dry place out of direct sunlight. May be stored in unheated facility. Spills from broken containers can be cleaned up by absorbing on clay or other suitable absorbent.

Wastes resulting from the use of this product may be disposed of at an approved waste disposal facility. Triple rinse containers. Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by Federal, State and local authorities.

Store this product in stainless steel, fiberglass, polyethylene, or certain other plastic materials. Copper or any of its alloys (brass or bronze) should never be used in any chelate handling system. Aluminum tanks are not recommended for storage of this product. Check with equipment manufacturer for compatibility of components prior to use with this product. NOTE: Do not mix or contaminate any EDTA type chelates with strong acid materials.

Platinum 9% Zinc EDTA is a fully chelated micronutrient recommended especially for:

1. Mixing with liquid fertilizers for pre-emergence or post-emergence application.
2. Mixing with liquid fertilizers.
3. Application in irrigation water, either alone or in combination with fertilizers and/or pesticides.
4. Mixing with pesticide spray solutions for soil application.
5. Application either alone or as a component in other liquid mixtures where soil application is otherwise impractical.
